

# DIN EN 16524:2021-01 (E)

## Mechanical products - Methodology for reduction of environmental impacts in product design and development

---

Contents	Page
European foreword .....	4
Introduction .....	5
1 Scope .....	7
2 Normative references .....	7
3 Terms and definitions .....	7
4 Symbols and abbreviations .....	10
5 Overview of the framework for the methodology (Preparatory step 0: strategic analysis) .	10
5.1 General .....	10
5.2 Preparatory step 0: strategic analysis at company level .....	11
5.2.1 Objective .....	11
5.2.2 Procedure .....	12
5.2.3 Documentation of the preparatory step 0 .....	12
6 Description of the methodology .....	12
6.1 General .....	12
6.2 Step 1: determination of the scoring of the environmental aspects of the reference product .....	14
6.2.1 Objective .....	14
6.2.2 Procedures .....	15
6.2.3 Documentation of Step 1 .....	20
6.3 Step 2: selection/ranking of design options .....	20
6.3.1 Objective .....	20
6.3.2 Procedure .....	20
6.3.3 Documentation of Step 2 .....	21
6.4 Step 3: Choice of suitable DO and EA indicators related to the reference product .....	21
6.4.1 Objective .....	21
6.4.2 Procedure .....	22
6.4.3 Documentation of Step 3 .....	22
6.5 Step 4: evaluation of the redesign using DO and EA indicators .....	23
6.5.1 Objective .....	23
6.5.2 Procedure .....	23
6.5.3 Documentation of Step 4 .....	23
6.6 Step 5: Final assessment and consideration for future activities .....	23
6.6.1 Objective .....	23
6.6.2 Procedure .....	24
6.6.3 Documentation of Step 5 .....	24
7 Environmental claim .....	24
Annex A(normative) Environmental questionnaire .....	26
Annex B(normative) Analysis algorithm .....	35
Annex C(informative) Examples of design options for environmental improvement of the product, and associated DO indicators and EA indicators .....	40

<b>Annex D(informative) Example of implementation of the methodology .....</b>	<b>48</b>
D.1      General .....	48
D.2      Step 1 .....	48
D.2.1    Description of the reference product and the project perimeter .....	48
D.2.2    Bill of Materials .....	48
D.2.3    Environmental questionnaire .....	51
D.2.4    Inputs to the algorithm .....	57
D.3      Steps 2 and 3 .....	63
<b>Annex E(informative) Background of the algorithm .....</b>	<b>67</b>
E.1      Construction of the algorithm .....	67
E.1.1    Overview .....	67
E.1.2    Rules for environmental analysis .....	67
E.2      Consideration of legislation .....	75
<b>Annex F(informative) Possible use of Life Cycle Assessment (LCA) for determining the score of each EA .....</b>	<b>76</b>
<b>Bibliography .....</b>	<b>85</b>
