

DIN EN 17449:2023-10 (E)

Safety of machinery - Safety requirements to finishing lines for metal strip

Contents		Page
European foreword		5
Introduction		6
1	Scope	7
2	Normative references	11
3	Terms and definitions	13
4	Significant hazards and risk assessment	20
4.1	General	20
4.2	Interfaces to the linked/integrated equipment	20
5	Safety requirements and/or protective/risk-reduction measures	20
5.1	General	20
5.2	General requirements for design, planning and risk assessment	21
5.2.1	General	21
5.2.2	Planning of finishing line	22
5.2.3	Linked equipment	22
5.2.4	Structural assembly	22
5.2.5	Safety layout	22
5.2.6	Safety signs and warning devices	23
5.2.7	Personal protective equipment (PPE)	23
5.2.8	Loss of energy and failure of controls	23
5.2.9	Workstations and assigned modes of operation	24
5.2.10	Enabling control device and hold-to-run control device	25
5.2.11	Access to and presence in danger zones	26
5.2.12	Safeguarding	29
5.2.13	Guards	29
5.2.14	Sensitive protective equipment	29
5.2.15	Guard-rails	30
5.2.16	Preconditions for movements of equipment not causing significant hazards	30
5.2.17	Determination of required Performance Level (PLr)	30
5.2.18	Stored energy	31
5.2.19	Mechanical restraint devices	32
5.2.20	Electrical equipment	32
5.2.21	Safety-related control systems	32
5.2.22	Safety-related software and parameters	32
5.2.23	Remote access to control systems	33
5.2.24	Radiation and fields	33
5.2.25	Fluid systems (hydraulic, pneumatic, cooling, lubrication and additional media systems)	34
5.2.26	Substances	35
5.2.27	Firefighting	35
5.2.28	Ergonomics	35
5.2.29	Vibrations	36
5.2.30	Noise reduction as a safety requirement	37
5.3	List of significant hazards, hazardous situations, safety requirements and/or protective/risk-reduction measures	39
5.3.1	Structure of Table 4	39

6	Verification/validation of safety requirements/functions and/or protective/risk reduction measures	72
6.1	General	72
6.2	Required verification D	73
6.3	Required verification V, M and T	73
7	Information for use	74
7.1	General	74
7.2	Warning devices and safety signs	74
7.3	Minimum marking	74
7.4	Accompanying documents	75
7.4.1	Instructions	75
7.4.2	Instruction for transportation and assembly of the equipment	77
7.4.3	Information about disabling, disassembly and disposal of the equipment	77
7.5	Training of personnel	78
7.6	Remote access	78
8	Supplementary information regarding repair work	78
Annex A (normative) Requirements for shut-down, emergency stop and other stop functions		80
A.1	General requirements	80
A.2	Specific requirements	80
A.3	Selection of stop functions	80
A.4	Emergency stop areas	81
A.5	Compilation of applicable shut-down, emergency stop and other stop functions	81
Annex B (normative) Noise test code		85
B.1	Introduction	85
B.2	Determination sound power levels	85
B.3	Determination of emission sound pressure levels at permanent or temporary work stations	86
B.3.1	Determination of the emission sound pressure level at specified measuring points	86
B.3.2	Determination of emission sound pressure level at workstations	86
B.4	Measurement uncertainty	87
B.5	Operating conditions	87
B.6	Information to be recorded and reported	88
B.7	Declaration and verification of noise emission values	88
Annex C (normative) Protection of persons in case of using asphyxiant gases used in firefighting systems		90
C.1	General	90
C.2	Warning devices	90
C.3	Restraint devices	91
C.4	Preliminary warning time	91
C.5	Interrupt device for extinguishing gas	92
C.6	Blocking devices	92
C.7	Pipes	92
C.8	Rooms and adjacent areas	93
C.9	Escape routes	93
C.10	Doors	93
C.11	Marking	93
C.12	Instruction handbook	93
Annex D (informative) Example for operating modes in relation to segregated areas		94
Annex E (informative) Example for the risk analysis due to interfaces		95
Bibliography		96
