ISO 4444:2022-08 (E)

Agricultural sprayers - Recording of spray drift parameters

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Measuring of the relevant parameters 2
4.1 General 2
4.2 Spray pressure 2
4.2.1 Accuracy of the measurement 2
4.2.2 Location of the measurement 2
4.2.3 Connection test instruments 3
4.3 Nozzle height 3
4.3.1 Sprayers with automatic spray boom height control 3
4.3.2 Sprayers with manual spray boom height control 3
4.4 Fan rotational speed 3
4.4.1 Accuracy of the measurement 3
4.4.2 Location of the measurement 3
4.4.3 Multiple fans 3
4.5 Sprayer forward speed 4
4.5.1 Accuracy of the measurement 4

5 Display, storage and transfer of the data 4
5.1 Operation parameter registration system (PRS) 4
5.2 Display and storage of the data 4

Annex A (informative) Translation table to ISO11783-11 5

Annex B (informative) List of possible other spray drift relevant parameters to be included in updated versions 6
