## Hydraulic fluid power - Multi-pass method of evaluating filtration performance of a filter element under cyclic flow conditions

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Symbols .....	4
5	General procedure .....	5
6	Test equipment .....	5
7	Measurement accuracy and test condition variation .....	7
8	Filter performance test circuit validation procedures .....	8
8.1	General .....	8
8.2	Filter test system validation .....	8
8.3	Contaminant injection system validation .....	9
9	Summary of information required prior to testing a filter element .....	9
10	Preliminary test preparation .....	10
10.1	Test filter assembly .....	10
10.2	Contaminant injection system .....	10
10.3	Filter test system .....	11
11	Filter performance test .....	12
12	Calculations .....	14
13	Data presentation .....	17
14	Identification statement (reference to this document) .....	18
Annex A (normative) Base test fluid properties .....		19
Annex B (informative) Test system design guide .....		21
Annex C (informative) Example report, calculations and graphs .....		26
Bibliography .....		35
