## Radio-frequency identification of animals - Code structure ultra high frequency transponders

---

| <b>Contents</b>                               |   | <b>Page</b> |
|---|---|-------------|
| Foreword .....                                |   | iv          |
| Introduction .....                            |   | v           |
| 1   | Scope .....                                     | 1           |
| 2   | Normative references .....                      | 1           |
| 3   | Terms and definitions .....                     | 1           |
| 4   | Symbols (and abbreviated terms) .....           | 5           |
| 5   | General requirements .....                      | 5           |
| 5.1   | General .....                                   | 5           |
| 5.2   | Structure of Reserved Memory Bank (MB 00) ..... | 6           |
| 5.3   | Structure of TID Memory Bank (MB 10) .....      | 7           |
| 5.4   | Structure of UHF Memory Bank (MB 01) .....      | 7           |
| 5.4.1   | General .....                                   | 7           |
| 5.4.2   | Structure of the StoredPC .....                 | 7           |
| 5.4.3   | Structure of the UHF .....                      | 8           |
| 6   | Backward compatibility .....                    | 10          |
| 6.1   | General .....                                   | 10          |
| 6.2   | LF transponders (for reference) .....           | 11          |
| 6.3   | UHF transponders .....                          | 11          |
| Annex A (informative) CRC 8 source code ..... |   | 13          |
| Bibliography .....                            |   | 14          |
