

ISO 3991:2025-03 (E)

Agricultural machinery - Robotic feed systems - Safety

Contents

Page

Foreword	v
Introduction	vi
1 Scope	1
2 Normative references	2
3 Terms and definitions	3
4 Safety requirements and/or protective measures	5
4.1 General	5
4.2 Storage of feed	6
4.2.1 General	6
4.2.2 Feed storage devices	6
4.2.3 Feed storage area	7
4.3 Loading	7
4.4 Checking of the mixing	8
4.5 Travelling	8
4.5.1 General	8
4.5.2 Area of travelling and pathways	8
4.5.3 Safety distance along the route	8
4.6 MFU	10
4.6.1 General	10
4.6.2 Obstacle protective system	11
4.6.3 Braking system	16
4.6.4 Audible alarm	16
4.6.5 Visual alarm	16
4.6.6 Additional requirements for hanging MFU	17
4.7 Distributing	17
4.8 Pushing feed/Cleaning	18
4.9 Electrical safety	18
4.9.1 General	18
4.9.2 Battery charging	18
4.10 Controls	19
4.10.1 Location	19
4.10.2 Controls for operational modes	19
4.11 Operational modes	20
4.11.1 General	20
4.11.2 Manual mode	20
4.11.3 Autonomous mode	20
4.11.4 Semi-autonomous robotic feed system	20
4.11.5 Service mode	21
4.12 Service and maintenance	21
4.13 Emergency stop devices	21
4.14 Fire and explosion	21
4.15 Magnets and magnetic fields	22
5 System integration	22
5.1 General	22
5.2 Layout design	22
5.3 Zones	23
5.3.1 Common zone	23
5.3.2 Caution zone	23
5.3.3 Restricted zone	23

6	Verification of the safety requirements and/or protective measures	23
7	Information for use	26
7.1	Operators manual	26
7.2	Layout	26
7.3	Marking	27
7.3.1	General	27
7.3.2	Safety signs	27
Annex A	(informative) Examples of robotic feed system	29
Annex B	(informative) List of significant hazards	31
Annex C	(normative) Safety functions of RFS requiring functional safety analysis	34
