ISO 22166-202:2025-03 (E)

Robotics - Modularity for service robots - Part 202: Information model for software modules

Contents

Page

Foreword ... **iv**

Introduction ... **v**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **1**

4 Information model for software modules ... **3**

4.1 General requirements ... 3

4.2 Class model of a software information model ... 4

4.2.1 General ... 4

4.2.2 Class for Module ID ... 6

4.2.3 Class for Properties ... 7

4.2.4 Class for IOVariables ... 13

4.2.5 Class for Status ... 14

4.2.6 Class for Services ... 15

4.2.7 Class for Infrastructure ... 17

4.2.8 Class for SafeSecure ... 20

4.2.9 Class for Modelling ... 20

4.2.10 Class for ExecutableForm ... 21

Annex A (normative) **Assignment rule of a software Module ID** ... **23**

Annex B (normative) **Representation of common information for software modules** ... **26**

Annex C (informative) **Examples for application of the software information model** ... **47**

Annex D (informative) **How to use software information models** ... **48**

Annex E (informative) **Services** ... **50**

Annex F (informative) **Mapping between an information model and ROS 2** ... **52**

Annex G (informative) **Mapping between an information model and OMG SDO/RTC/OpenRTM's RTCProfile** ... **57**

Annex H (normative) **Data types for software information model** ... **60**

Bibliography ... **61**
