DIN EN 12757-1:2006-01 (E)

Mixing machinery for coating materials - Safety requirements - Part 1: Mixing machinery for use in vehicle refinishing

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 6

3 Terms and definitions 7

4 List of significant hazards 10

5 Safety requirements and/or measures 13

6 Verification of the safety requirements and/or measures 19

7 Information for use 21

Annex A (informative) Relationship between categories and zones 24

Annex B (informative) Explosion-prevention requirements for mixing machinery for vehicle refinishing 25

Annex C (informative) National references to exposure limit values 26

Annex D (informative) Classification of construction material's reaction to fire - National standards 27

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC 28

Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC 29
