

# ISO 8579-1:2002-08 (E)

## Acceptance code for gear units - Part 1: Test code for airborne sound

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Gear configuration and acoustic environment .....	2
5	Sound power level determination .....	3
6	Determination of emission sound pressure level .....	16
7	Installation and mounting conditions .....	17
8	Operating conditions during sound measurements .....	18
9	Information to be recorded .....	19
10	Information to be reported .....	19
11	Declaration and verification of sound emission values .....	19
Annex A (informative) Examples of microphone positions on the measurement surface for different gear types and sizes .....		20
Annex B (informative) Typical sound levels for different gear types and sizes (sound power and sound pressure) .....		29
Annex C (informative) Information for the determination of airborne sound power levels using the methods of ISO 3744:1981 and ISO 3746:1979 .....		44
Bibliography .....		53
