

# ISO 8579-1:2002-08 (E)

## Acceptance code for gear units - Part 1: Test code for airborne sound

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 Scope .....		1
2 Normative references .....		1
3 Terms and definitions .....		2
4 Gear configuration and acoustic environment .....		2
5 Sound power level determination .....		3
6 Determination of emission sound pressure level .....		16
7 Installation and mounting conditions .....		17
8 Operating conditions during sound measurements .....		18
9 Information to be recorded .....		19
10 Information to be reported .....		19
11 Declaration and verification of sound emission values .....		19
Annex A (informative) Examples of microphone positions on the measurement surface for different gear types and sizes .....		20
Annex B (informative) Typical sound levels for different gear types and sizes (sound power and sound pressure) .....		29
Annex C (informative) Information for the determination of airborne sound power levels using the methods of ISO 3744:1981 and ISO 3746:1979 .....		44
Bibliography .....		53
