Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Types and designs of powder binder spreaders 2
4.1 General 2
4.2 Propulsion type 2
4.3 Transfer method of binder from tank to ground 2
4.4 Proportioner type 2

5 Commercial specifications 3
5.1 Main assemblies of powder binder spreader 3
5.2 Main measuring and control equipment 3
5.3 Additional special devices 4
5.4 Main characteristics of spreaders 4

Annex A (informative) Examples of structures and dimensional characteristics of binder powder spreaders 8
