

ISO 17559:2003-11 (E)

Hydraulic fluid power - Electrically controlled hydraulic pumps - Test methods to determine performance characteristics

Contents		Page
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols	2
5	Test installation -- General requirements	2
5.1	General	2
5.2	General test apparatus	4
6	General test conditions	5
6.1	Test fluid	5
6.2	Ambient conditions	5
6.3	Steady-state conditions	5
7	Tests of steady-state performance characteristics	5
7.1	General	5
7.2	Flow/pressure characteristics	5
7.3	Characteristic test on output pressure against input pressure command signal: test procedure and presentation of test results	7
7.4	Characteristic test of output flow against input flow signal -- Test procedure and expression of test results	8
7.5	Repeatability test	9
7.6	Test for change in characteristics against oil temperature	12
8	Tests of dynamic performance characteristics	13
8.1	General	13
8.2	Pressure compensator response and recovery	13
8.3	Test of step response versus output pressure -- Test procedure and presentation of test results	14
8.4	Test of step response versus output flow -- Test procedure and presentation of test results . 15	16
	8.5 Frequency response	16
	Annex A (normative) Classes of measurement accuracy	19
	Bibliography	20
