DIN EN 14343:2006-11 (E)

Rotary positive displacement pumps - Performance tests for acceptance

Contents

Page

page Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4
3.1 General 4
3.2 Types of test 4
3.3 Test levels 5
3.4 Other terms 5

4 Performance requirements 6

5 Organisation 6
5.1 Responsibility for test 6
5.2 Test location 6
5.3 Test date 6
5.4 Test programme 6

6 Equipment 7
6.1 Test equipment 7
6.2 Measurement equipment 8

7 Test conditions 9
7.1 Test condition variables (TCV) 9
7.2 Fluctuations 9

8 Test procedure 10
8.1 Pre-run data 10
8.2 Operating the pump 10
8.3 Collection of test data 11
8.4 After test 11

9 Evaluation and test report 12
9.1 Readings and primary data 12
9.2 Accuracy 12
9.3 Acceptance limits 13
9.4 Evaluation 13
9.5 Test report 14

Annex A (informative) Example of rotary displacement pump test loop 15

Annex B (informative) Priming test 16
