Cranes - Design calculation for rail wheels and associated trolley track supporting structure - Part 1: General

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Requirements	1
4.1	Selection of rail wheels	1
4.2	Determination of the class of mechanism of the travel wheel	5
4.3	Determination of local stresses due to wheel loads	5
Annex A (informative) Distribution of wheel load under rail		6
Annex B (informative) Local stresses in wheel-supporting flanges		8
Bibliography		13
