

# ISO 10303-14 :2005-10 (E)

## Contents

- 1 Scope ..... 1
- 2 Normative references ..... 2
- 3 Terms and Definitions ..... 2
  - 3.1 Terms defined in ISO 10303-1 ..... 2
  - 3.2 Terms defined in ISO 10303-11 ..... 2
  - 3.3 Other definitions ..... 3
- 4 Fundamental principles ..... 4
  - 4.1 Overview ..... 4
  - 4.2 Fundamental principles of the execution model ..... 5
    - 4.2.1 Overview ..... 5
    - 4.2.2 Binding process ..... 5
    - 4.2.3 Instantiation process ..... 6
  - 4.3 Implementation environment ..... 8
- 5 Conformance requirements ..... 8
  - 5.1 EXPRESS-X conformance classes ..... 8
    - 5.1.1 Overview ..... 8
    - 5.1.2 EXPRESS-X parser conformance classes ..... 9
    - 5.1.3 EXPRESS-X mapping engine conformance classes ..... 9
    - 5.1.4 Consistency checking of EXPRESS-X parsers ..... 9
- 6 Language specification syntax ..... 10
- 7 Basic language elements ..... 11
  - 7.1 Overview ..... 11
  - 7.2 Reserved words ..... 11
- 8 Data types ..... 12
  - 8.1 Overview ..... 12
  - 8.2 View data type ..... 12
- 9 Declarations ..... 12
  - 9.1 Overview ..... 12
  - 9.2 Binding ..... 13
    - 9.2.1 Overview ..... 13
    - 9.2.2 Binding extent ..... 13
    - 9.2.3 Qualification of the binding extent ..... 14
    - 9.2.4 Identification of view and target instances ..... 15
    - 9.2.5 Equivalence classes and the instantiation process ..... 16
    - 9.2.6 Ordering of view and target instances ..... 17
  - 9.3 View declaration ..... 18
    - 9.3.1 Overview ..... 18
    - 9.3.2 View attributes ..... 18
    - 9.3.3 View partitions ..... 19
    - 9.3.4 Constant partitions ..... 20
    - 9.3.5 Dependent views ..... 20
    - 9.3.6 Specifying subtype views ..... 21
    - 9.3.7 Supertype constraints ..... 22

9.4	Map declaration.....	23
9.4.1	Overview .....	23
9.4.2	Evaluation of the map body .....	24
9.4.3	Iteration under a single binding instance .....	24
9.4.4	Map partitions .....	27
9.4.5	Mapping to a type and its subtypes .....	28
9.4.6	Explicit declaration of complex entity data types .....	31
9.4.7	Dependent map .....	33
9.5	Schema view declaration.....	34
9.6	Schema map declaration .....	34
9.7	Local declaration.....	36
9.8	Constant declaration.....	37
9.9	Function declaration.....	37
9.10	Procedure declaration.....	37
9.11	Rule declaration .....	37
10	Expressions .....	37
10.1	Overview .....	37
10.2	View call .....	39
10.3	Map call.....	41
10.4	Partial binding calls.....	43
10.5	FOR expression.....	44
10.6	IF expression .....	47
10.7	CASE expression .....	47
10.8	Forward path operator .....	48
10.9	Backward path operator .....	49
11	Built-in functions .....	51
11.1	Extent - general function.....	51
12	Scope and visibility .....	51
12.1	Overview .....	51
12.2	Schema view .....	52
12.3	Schema map .....	53
12.4	View and dependent view .....	53
12.5	View partition label.....	53
12.6	View attribute identifier .....	53
12.7	FOR expression.....	54
12.8	Map and dependent map .....	54
12.9	FROM Language Element .....	54
12.10	Instantiation Loop .....	54
12.11	Path expression.....	55
13	Interface specification .....	55
13.1	Overview .....	55
13.2	The REFERENCE language element.....	55

Annex A (normative) Information object registration .....	57
Annex B (normative) EXPRESS-X language syntax .....	58
B.1 Tokens .....	58
B.2 Grammar rules .....	59
B.3 Cross reference listing .....	65
Annex C (normative) EXPRESS-X to EXPRESS transformation algorithm .....	69
Annex D (informative) Implementation considerations .....	71
D.1 Push mapping .....	71
D.2 Pull mapping .....	71
D.3 Support of constraint checking .....	71
D.4 Support for updates .....	71
Annex E (informative) Path operator unnest function .....	73
Annex F (informative) Mapping table semantics .....	74
F.1 Delimiter symbols .....	74
F.2 Aggregation symbols .....	76
F.3 Equal sign .....	77
F.4 Parentheses .....	77
F.5 Square brackets .....	78
F.6 Example .....	78
Bibliography.....	80
Index.....	81

## Tables

Table 1-Language Subsets .....	8
Table 2-Additional EXPRESS-X keywords .....	11
Table 3-Operator precedence .....	38
Table 4-Scope and identifier defining items .....	51
