

DIN EN ISO 10218-1:2007-02 (E)

Robots for industrial environments - Safety requirements - Part 1: Robot (ISO 10218-1:2006)

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	6
4	Hazard identification and risk assessment	10
5	Design requirements and protective measures	11
5.1	General	11
5.2	General requirements	11
5.3	Actuating controls	12
5.4	Safety-related control system performance (hardware/software)	13
5.5	Robot stopping functions	14
5.6	Reduced speed control	15
5.7	Operational modes	15
5.8	Pendant controls	16
5.9	Control of simultaneous motion	18
5.10	Collaborative operation requirements	18
5.11	Singularity protection	19
5.12	Axis limiting	19
5.13	Movement without drive power	21
5.14	Provisions for lifting	21
5.15	Electrical connectors	21
6	Information for use	21
6.1	General	21
6.2	Instruction handbook	22
6.3	Marking	23
Annex A (normative) List of significant hazards		24
Annex B (normative) Stopping time and distance metric		26
Annex C (informative) Functional characteristics of 3-position enabling device		28
Annex D (informative) Optional features		29
Annex E (informative) Methods for mode labelling		30
Annex F (informative) Normative references to international publications with their corresponding European publications		31
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive for Machinery 98/37/EC		32
Bibliography		33
