

DIN EN 14930:2008-01 (E)

Agricultural and forestry machinery and gardening equipment - Pedestrian controlled and hand-held machines - Determination of accessibility of hot surfaces

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Principles	5
5	Test equipment	6
5.1	Temperature measuring equipment	6
5.2	Test cone	6
6	Test procedure	6
6.1	Determination of touchable surfaces	6
6.2	Determination of temperature of touchable surfaces	7
6.3	Determination of area for interrupted surfaces	7
7	Test acceptance	9
Annex A (informative)	Flowchart for the determination of inadvertent accessibility of hot surfaces of machinery	10
Annex ZA (informative)	Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC, amended by Directive 98/79/EC	11
