

DIN EN 14930:2008-01 (E)

Agricultural and forestry machinery and gardening equipment - Pedestrian controlled and hand-held machines - Determination of accessibility of hot surfaces

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 Principles	5
5 Test equipment	6
5.1 Temperature measuring equipment	6
5.2 Test cone	6
6 Test procedure	6
6.1 Determination of touchable surfaces	6
6.2 Determination of temperature of touchable surfaces	7
6.3 Determination of area for interrupted surfaces	7
7 Test acceptance	9
Annex A (informative) Flowchart for the determination of inadvertent accessibility of hot surfaces of machinery	10
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC, amended by Directive 98/79/EC	11
