

# ISO 7483:1991-10 (E)

## Dimensions of gaskets for use with flanges to ISO 7005

---

<b>Contents</b>	<b>Page</b>
<b>Section 1 General</b> .....	<b>1</b>
1.1 Scope .....	1
1.2 Normative references .....	1
1.3 Definitions .....	1
1.4 Gasket forms .....	1
<b>Section 2 Non-metallic flat gaskets</b> .....	<b>3</b>
2.1 Gasket designs .....	3
2.2 Gasket types .....	3
2.3 Range of gasket sizes .....	4
2.4 Dimensions .....	4
<b>Section 3 Spiral wound gaskets</b> .....	<b>15</b>
3.1 Gasket designs .....	15
3.2 Gasket designs according to flange facing .....	16
3.3 Marking .....	16
3.4 Dimensions .....	16
<b>Section 4 Metallic ring-joint gaskets</b> .....	<b>22</b>
4.1 Gasket designs .....	22
4.2 Dimensions and tolerances .....	22
4.3 Surface texture .....	22
4.4 Identification number .....	22
4.5 Marking .....	22
4.6 Typical materials for metallic ring-joint gaskets .....	27
<b>Section 5 Non-metallic envelope gaskets</b> .....	<b>28</b>
5.1 Gasket designs .....	28
5.2 Gasket applications .....	28
5.3 Dimensions .....	28
<b>Section 6 Corrugated, flat or grooved metallic and filled metallic gaskets</b> .....	<b>30</b>
6.1 Gasket designs .....	30
6.2 Gasket types .....	30
6.3 Dimensions .....	30
<b>Annexes A Flange facing types</b> .....	<b>32</b>
<b>B Information to be supplied by the purchaser</b> .....	<b>33</b>
B.1 General .....	33
B.2 For non-metallic flat gaskets .....	33
B.3 For Spiral wound gaskets .....	33
B.4 For metallic ring-joint gaskets .....	33
B.5 For non-metallic envelope gaskets .....	33
B.6 For corrugated, flat or grooved metallic and filled metallic gaskets .....	33
