ISO 14084-2:2015-04 (E)

Process diagrams for power plants - Part 2: Graphical symbols

Contents

Page

Foreword vi

Introduction vii

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Graphical symbols 1
4.1 General 1
4.2 Size of graphical symbols 1
4.3 Creation of new symbol examples 2
4.4 Symbols for large/complex objects 2

5 Structuring and representation 2
5.1 Overall structure 2
5.2 Registration numbers 2
5.3 Representation of graphical symbols in the standard 3
5.4 Legend to table representation 3

6 Connections and related devices 4
6.1 Fluid connections 4
6.1.1 Functional connections 4
6.1.2 Connections with indication of process media 4
6.1.3 Simplified representation 5
6.1.4 Symbols for direction, branching, crossing, etc 5
6.1.5 Pipeline joints, couplings, etc 6
6.1.6 Accessories for connections 6
6.1.7 Pipeline components 7
6.1.8 Pipeline insulation, tracing, etc 8
6.2 Mechanical connections 9

7 Fluidflowcontrol 9
7.1 Valves 9
7.1.1 On-off valves 9
7.1.2 Non-return valves 10
7.1.3 Control valves 11
7.1.4 Safety and relief valves 12
7.1.5 Special valves 13
7.1.6 Supplementary valve symbols 13
7.1.7 Specific valve features 14
7.2 Dampers 14
7.2.1 On-off dampers 14
7.2.2 Non-return dampers 15
7.2.3 Control dampers 15
7.2.4 Safety dampers 16
7.3 Safety devices other than valves 16

8 Actuators 16
8.1 Manual actuators 16

8.2 Mechanical actuators ... 16
8.3 Automatic actuators ... 17
8.4 Supplementary symbols ... 17

9 Fluid transport ... 18
9.1 Pumps ... 18
9.2 Fans, ventilators, blowers, compressors, etc ... 19
9.3 Vacuum pumps, etc ... 20

10 Fluid energy transfer ... 21

10.1 Heat exchangers ... 21
10.2 Energy transfer by mixing ... 23
10.3 Cooling towers ... 23

11 Fluid processing ... 24
11.1 Separation ... 24
11.1.1 Separation, general ... 24
11.1.2 Separation of suspended substances in liquids ... 25
11.1.3 Separation of suspended substances in gasses ... 27
11.2 Processing of fluids by adsorption, catalysis, conversion, thermic, etc ... 28
11.2.1 Liquids ... 28
11.2.2 Gasses ... 29
11.3 Mixing ... 30
11.3.1 General ... 30
11.3.2 Devices for mixing ... 30

12 Storage ... 31
12.1 Permanent storage ... 31
12.2 Storage devices, surface indications, etc ... 32
12.3 Mobile storage devices ... 33
12.4 Energy storage, expansion devices ... 33

13 Material transport ... 34
13.1 Conveyors, elevators, unloaders, etc ... 34
13.2 Material flow control ... 36
13.3 Feeders ... 37
13.4 Handling equipment ... 38
13.5 Mobile transport equipment ... 39

14 Material processing ... 40
14.1 Separation ... 40
14.2 Processing, size reduction ... 42
14.2.1 Size reduction ... 42
14.2.2 Coarse size reduction, crushers ... 42
14.2.3 Fine size reduction, mills ... 42
14.2.4 Biomass processing ... 43
14.3 Humidifieing ... 43

15 Thermal energy generators ... 44
15.1 Conventional energy generators ... 44
15.2 Boiler combustion / heating systems ... 45
15.3 Boiler devices ... 45
15.4 Non-conventional energy generators ... 46
15.5 Thermal energy consumers ... 47

16 Machines, engines ... 47
16.1 Steam turbines, steam engines ... 47
16.2 Combustion engines, gas turbines ... 47
16.3 Electrical engines, motors, generators, converters ... 48

17 Mechanical transmission, shafts, bearings, couplings, etc ... 48

17.1 Shafts 48
17.2 Bearings 48
17.3 Gears 49
17.4 Couplings 49
17.5 Brakes 50
17.6 Transmissions devices 50

18 Instrumentation, measurement and control 50
18.1 Process control information (PCI) 50
18.2 Measurement devices, sensors, etc 51
18.2.1 Sensors general, etc 51
18.2.2 Temperature 51
18.2.3 Level 52
18.2.4 Weight 52
18.2.5 Flow 52
18.2.6 Speed, vibrations, etc 53
18.2.7 Length, position displacement, etc 54
18.3 Signals 54
18.4 Miscellaneous 54
18.5 Control processing elements 55

Annex A (informative) Creation of new symbol examples 57

Annex B (informative) Examples of large and complex symbols 59
