DIN 28125-1:2020-04 (E)

Hinged closures, round - Part 1: Nominal diameter DN 150 to DN 800

Contents

Page

Foreword ... 3

1 Scope ... 4

2 Normative references ... 4

3 Terms and definitions ... 5

4 General ... 5

5 Reference values for design data ... 6

6 Types of hinged closure and individual components ... 6

7 Dimensions, mass, complete closure ... 7
7.1 General ... 7
7.2 Complete closure of unalloyed or alloyed steel ... 7
7.3 Complete closure of unalloyed or alloyed steel with surface protection ... 8
7.4 Complete closure of stainless steel ... 9
7.5 Cover, flat and dished ... 10
7.6 Masses ... 14

8 Dimensions for components ... 15
8.1 Cover and nozzles of unalloyed or alloyed steel ... 15
8.1.1 Flat face ... 15
8.1.2 Tongue and groove faces ... 17
8.2 Cover and nozzles of unalloyed or alloyed steel with surface protection, flat faces ... 19
8.3 Cover and nozzles of stainless steel ... 20
8.3.1 Flat faces ... 20
8.3.2 Tongue and groove faces ... 23
8.4 Brackets for eye bolts ... 25
8.5 Hinge ... 26
8.5.1 Hinge element on nozzle ... 26
8.5.2 Hinge element on cover ... 27

9 Pins ... 29

10 Gaskets ... 30

11 Materials of individual components ... 31

12 Surface protection ... 32

13 Designation ... 32
13.1 Designation of closures with hinges without opening aids ... 32
13.2 Designation of closures with hinge elements as opening aids (see Annex A) ... 33
13.3 Designation of individual components ... 33

14 Marking ... 33

Annex A (informative) Hinge elements as opening aids ... 34
A.1 Installation example of opening aids ... 34
A.1.1 Hinge element on nozzle as an opening aid ... 35
A.1.2 Hinge element on cover as an opening aid ... 35
A.2 Function of hinge ... 36
