DIN EN 12952-9:2022-12 (E)

Water-tube boilers and auxiliary installations - Part 9: Requirements for firing systems for pulverized solid fuels for the boiler

Contents

Page

European foreword 4

1 Scope 6
1.1 Firing systems 6
1.2 Fuels 6
1.3 Operation 6

2 Normative references 6

3 Terms and definitions 7

4 Fuel bunkers and conveying plant 11
4.1 General 11
4.2 Conveying plant 11
4.3 Solid fuel bunkers 11

5 Pulverizing system and pulverized fuel system 12
5.1 Introduction 12
5.2 Solid fuel feeders 12
5.3 Mills 12
5.4 Pulverized fuel bins 13
5.5 Pulverized fuel supply pipes and shut-off devices 13

6 Explosion prevention measures for pulverizing systems and pulverized fuel systems 14
6.1 General 14
6.2 Plants operated without inert gas protection 15
6.3 Plants operated with inert gas protection 15

7 Equipment for air supply and flue gas discharge 16
7.1 Air supply 16
7.2 Air/fuel ratio 17
7.3 Flue gas discharge 17

8 Firing system 17
8.1 General 17
8.2 Burners for pulverized fuel 18
8.3 Flue gas recirculation 18
8.4 Monitoring and control 18
8.5 Electrical equipment 19
8.6 Safety precautions 19
8.6.1 Purging of the flue gas passes and lighting-up 19
8.6.2 Start-up 20
8.6.3 Operation 20
8.6.4 Shutting down of direct-firing systems 20
8.6.5 Shutting down of indirect-firing systems 22

9 Ash extraction plant 23

10 Operation and maintenance 23
10.1 General 23
10.2 Operating instructions 23

Annex A (informative) Operational requirements for permanently supervised firing system for pulverized fuel 24

A.1 General 24
A.2 Operation 24
A.3 Mills 24
A.4 Air/fuel ratio 24
A.5 Firing system 24
A.5.1 Combustion residues 24
A.5.2 Modification of the firing system setting 24
A.5.3 Safety precautions 24
A.5.4 Operation 25
A.6 Operating and maintenance 25

Annex B (informative) Significant technical changes between this document and the previous edition 26

Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2014/68/EU aimed to be covered 27
