DIN EN 12953-2:2026-01 (E)

Shell boilers - Part 2: Materials for pressure parts of boilers and accessories

Contents

Page

European foreword 3

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 General requirements for material selection 7
4.1 General 7
4.2 Material specification 7
4.3 European Approvals for Materials (EAM) 7
4.4 Particular Material Appraisals (PMA) 7

5 Materials for pressure parts 8
5.1 Shell boiler body 8
5.2 Valves and other forged or cast products 9
5.3 Bolting material 10
5.4 Flange and fitting material 10
5.4.1 Flange material 10
5.4.2 Fitting material 10
5.5 Welding consumables 10
5.6 Inspection documents 10
5.7 Marking and traceability 11
5.7.1 General 11
5.7.2 Material supplied from a supplier other than the material manufacturer 11
5.7.3 Material traceability during cutting and forming 11

6 Materials for non pressure parts 11

Annex A (informative) Example for Particular Material Appraisals (PMA) 12

Annex B (informative) Significant technical changes between this document and the previous edition 14

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2014/68/EU aimed to be covered 15
