Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Physical test methods 4
4.1 General 4
4.2 Layer adhesion 4
4.3 Binder stability test 6
4.4 Blocking test and image interaction test 7

5 Test methods for image stability 9
5.1 General 9
5.2 Thermal-ageing test (dark stability) 9
5.3 Light chamber test 13
5.4 Image spread test 16

Annex A (informative) Light stability test conversion of units 19

Annex B (informative) Effect of residual compounds on thermally processed radiographic images 20

Annex C (informative) Simulated thermal ageing tests 21

Annex D (informative)Greyscaleevaluationbasedonjustnoticeabledifferences(JNDs)defined DICOM standard display function (SDF) 22

Annex E (informative) CIE colour space parameters for evaluation of discolouration 26
