

ISO 18939:2013-11 (E)

Imaging materials - Digital hard copy for medical imaging - Methods of measuring permanence

| Contents | | Page |
|--|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Physical test methods | 4 |
| 4.1 | General | 4 |
| 4.2 | Layer adhesion | 4 |
| 4.3 | Binder stability test | 6 |
| 4.4 | Blocking test and image interaction test | 7 |
| 5 | Test methods for image stability | 9 |
| 5.1 | General | 9 |
| 5.2 | Thermal-ageing test (dark stability) | 9 |
| 5.3 | Light chamber test | 13 |
| 5.4 | Image spread test | 16 |
| Annex A (informative) Light stability test conversion of units | | 19 |
| Annex B (informative) Effect of residual compounds on thermally processed radiographic images | | 20 |
| Annex C (informative) Simulated thermal ageing tests | | 21 |
| Annex D (informative) Greyscale evaluation based on just noticeable differences (JNDs) defined DICOM standard display function (SDF) | | 22 |
| Annex E (informative) CIE colour space parameters for evaluation of discolouration | | 26 |
| Bibliography | | 27 |
