

ISO 18939:2013-11 (E)

Imaging materials - Digital hard copy for medical imaging - Methods of measuring permanence

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Physical test methods	4
4.1 General	4
4.2 Layer adhesion	4
4.3 Binder stability test	6
4.4 Blocking test and image interaction test	7
5 Test methods for image stability	9
5.1 General	9
5.2 Thermal-ageing test (dark stability)	9
5.3 Light chamber test	13
5.4 Image spread test	16
Annex A (informative) Light stability test conversion of units	19
Annex B (informative) Effect of residual compounds on thermally processed radiographic images	20
Annex C (informative) Simulated thermal ageing tests	21
Annex D (informative) Greyscale evaluation based on just noticeable differences (JNDs) defined DICOM standard display function (SDF)	22
Annex E (informative) CIE colour space parameters for evaluation of discolouration	26
Bibliography	27
