

ISO/ASTM 51900:2023-04 (E)

Guidance for dosimetry for radiation research

Contents		Page
1	Scope	1
2	Referenced documents	1
3	Terminology	2
4	Significance and use	3
5	Irradiation facilities and modes of operation	4
6	Radiation source characteristics	5
7	Dosimetry systems	5
8	Irradiator characterization	6
9	Sample or product dose mapping	6
10	Dosimetry during experimentation	7
11	Documentation	8
12	Measurement uncertainty	8
13	Keywords	8
Table 1 Examples of routine dosimeters (see ISO/ASTM 52628)		6
