DIN EN ISO 23588:2024-10 (E)

Radiological protection - General requirements for proficiency tests for in vivo radiobioassay (ISO 235 88:2023)

Contents

Page

European foreword ... **3**

Foreword ... **4**

Introduction ... **5**

1 Scope ... **6**

2 Normative references ... **6**

3 Terms and definitions ... **6**

4 Planning ... **7**
4.1 Determination of the type of proficiency test ... 7
4.2 Choice of measurement tasks ... 8
4.3 Selection of radionuclides ... 8
4.4 Selection of activity ranges ... 8
4.5 Choice of phantom ... 9
4.6 Announcement of the proficiency test ... 9

5 Preparation of phantoms and sources ... **10**
5.1 Preparation of phantoms ... 10
5.2 Preparation of sources ... 10
5.3 Quality assurance ... 10

6 Conducting the proficiency test ... **10**
6.1 General ... 10
6.2 Preparation of the phantom at the participant's facility ... 11
6.3 Measurement of the phantom by the participants ... 11
6.4 Reporting protocol ... 11

7 Data analysis and evaluation of results ... **12**
7.1 General ... 12
7.2 Determination of the assigned value ... 12
7.3 Calculation of the performance scores ... 13
7.4 Report ... 13

Annex A (informative) **Example schedule for a proficiency test** ... **14**

Annex B (informative) **Example measurement tasks** ... **15**

Annex C (normative) **MTL for in vivo radiobioassay performance testing** ... **16**

Annex D (informative) **Examples of phantoms** ... **17**

Bibliography ... **18**
