ISO 9236-1:2004-02 (E)

Photography - Sensitometry of screen/film systems for medical radiography - Part 1: Determination of sensitometric curve shape, speed and average gradient

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 General requirements 2
4.1 Storage and handling conditions 2
4.2 Safelights 2
4.3 X-ray equipment 3
4.4 Air kerma meter 3
4.5 Processing 3
4.6 Densitometry 4

5 Determination of sensitometric curve shape 4
5.1 General 4
5.2 Beam qualities 5
5.3 Geometry for curve shape determination 5
5.4 Exposure 8
5.5 Evaluation 8

6 Determination of average gradient 8

7 Determination of speed 10
7.1 Definition 10
7.2 Beam qualities 10
7.3 Geometry 13
7.4 Exposure 13
7.5 Evaluation 13

8 Speed and average gradient determination without sensitometric curve 16

9 Uncertainty 16

10 Test report 17

Annex A (informative) Rationale 18
