Photography - Sensitometry of screen/film systems for medical radiography - Part 1: Determination of sensitometric curve shape, speed and average gradient

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	General requirements	2
4.1	Storage and handling conditions	2
4.2	Safelights	2
4.3	X-ray equipment	3
4.4	Air kerma meter	3
4.5	Processing	3
4.6	Densitometry	4
5	Determination of sensitometric curve shape	4
5.1	General	4
5.2	Beam qualities	5
5.3	Geometry for curve shape determination	5
5.4	Exposure	8
5.5	Evaluation	8
6	Determination of average gradient	8
7	Determination of speed	10
7.1	Definition	10
7.2	Beam qualities	10
7.3	Geometry	13
7.4	Exposure	13
7.5	Evaluation	13
8	Speed and average gradient determination without sensitometric curve	16
9	Uncertainty	16
10	Test report	17
Annex A (informative) Rationale		18
