Shell boilers - Part 5: Inspection during construction, documentation and marking of pressure parts of the boiler

Contents	Page
European foreword	3
1 Scope	5
2 Normative references	5
3 Terms and definitions	6
4 Symbols	6
5 Inspection and testing	7
5.1 General	7
5.2 Approval of personnel	7
5.3 Calibration of equipment	7
5.4 Inspection activities	7
5.5 Non-destructive examinations	11
5.6 Weld production control test plates	19
5.7 Corrugated furnace tubes	21
5.8 Final assessment	24
5.9 Economizer and superheater	25
6 Documentation, certification and marking	26
6.1 General	26
6.2 Documentation	26
6.3 Declaration	26
6.4 Marking	26
Annex A (normative) Economizer and/or superheater with water tube design connected to the shell boiler including piping	28
A.1 General	28
A.2 Extent of NDT for welds for economizers and/or superheaters and/or piping	28
Annex B (informative) Significant technical changes between this European Standard and the previous edition	30
Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2014/68/EU (Pressure equipment Directive) aimed to be covered	31
