

ISO 14343:2009-11 (E)

Welding consumables - Wire electrodes, strip electrodes, wires and rods for arc welding of stainless and heat resisting steels - Classification

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Classification		2
5 Properties of all-weld metal		11
6 Chemical analysis		11
7 Rounding procedure		11
8 Retests		11
9 Technical delivery conditions		11
10 Examples of designation		12
Annex A (informative) Expected minimum tensile properties of all-weld metal		13
Bibliography		15
