

DIN EN ISO 544:2011-06 (E)

Welding consumables - Technical delivery conditions for filler materials and fluxes - Type of product, dimensions, tolerances and markings (ISO 544:2011)

| Contents | | Page |
|--------------------|---|-------------|
| Foreword | | 3 |
| 1 | Scope | 4 |
| 2 | Normative references | 4 |
| 3 | Product type and welding process | 4 |
| 4 | Dimensions and tolerances | 4 |
| 4.1 | Solid wires and solid wire electrodes, tubular cored wires and tubular cored electrodes, solid and tubular cored rods and covered electrodes | 4 |
| 4.2 | Solid strip electrodes | 5 |
| 4.3 | Cored strip electrodes and thin foils | 5 |
| 4.4 | Fluxes | 7 |
| 5 | Rounding procedure | 7 |
| 6 | Condition of welding consumables | 7 |
| 6.1 | Covered electrodes | 7 |
| 6.2 | Wires, rods, and strips | 7 |
| 7 | Marking | 11 |
| 7.1 | Marking on the product | 11 |
| 7.1.1 | Covered electrodes | 11 |
| 7.1.2 | Wires and strips | 11 |
| 7.1.3 | Rods | 11 |
| 7.2 | Marking on the package | 11 |
| 8 | Packaging | 11 |
| 9 | Inspection documents | 11 |
| Bibliography | | 12 |
