ISO 14921:2010-12 (E)

Thermal spraying - Procedures for the application of thermally sprayed coatings for engineering components

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Component and coating design considerations 1
4.1 General 1
4.2 Pre-inspection in the case of repair 2
4.3 Component substrate 2
4.4 Coating 2

5 Preliminary machining by turning, milling, or grinding 3

6 Masking 3

7 Methods of surface preparation 3

8 Thermal spraying 4

9 Inspection after spraying 4

10 Sealing 4

11 Finishing 4

12 Final inspection 4

13 Documentation 5

Annex A (informative) Flow chart for assessment of suitability of thermal spraying 6

Annex B (informative) Check list for evaluation of the most suitable coating system for the intended purpose 7

Annex C (informative) Record for the applied thermal spray procedure 8
