| European foreword ..... |   | 4           |
| Foreword .....          |   | 5           |
| Introduction .....      |   | 6           |
| <b>1</b>                | <b>Scope</b> .....  | <b>7</b>    |
| <b>2</b>                | <b>Normative references</b> .....                               | <b>8</b>    |
| <b>3</b>                | <b>Terms and definitions</b> .....                              | <b>9</b>    |
| <b>4</b>                | <b>Preliminary welding procedure specification (pWPS)</b> ..... | <b>9</b>    |
| <b>5</b>                | <b>Welding procedure test</b> .....                             | <b>9</b>    |
| <b>6</b>                | <b>Test piece</b> .....   | <b>9</b>    |
| 6.1                     | General .....   | 9           |
| 6.2                     | Shape and dimensions of test pieces .....                       | 10          |
| 6.2.1                   | General .....   | 10          |
| 6.2.2                   | Butt joint in plate with full penetration .....                 | 10          |
| 6.2.3                   | Butt joint in pipe with full penetration .....                  | 10          |
| 6.2.4                   | T-joint .....   | 10          |
| 6.2.5                   | Branch connection .....   | 10          |
| 6.3                     | Welding of test pieces .....                                    | 10          |
| <b>7</b>                | <b>Examination and testing</b> .....                            | <b>14</b>   |
| 7.1                     | Type and extent of testing .....                                | 14          |
| 7.2                     | Location and taking of test specimens .....                     | 15          |
| 7.3                     | Non-destructive testing .....                                   | 19          |
| 7.4                     | Destructive testing .....                                       | 19          |
| 7.4.1                   | Transverse tensile test .....                                   | 19          |
| 7.4.2                   | Bend test .....   | 19          |
| 7.4.3                   | Macroscopic examination .....                                   | 19          |
| 7.4.4                   | Impact testing .....  | 20          |
| 7.4.5                   | Hardness testing .....  | 20          |
| 7.5                     | Acceptance levels .....   | 21          |
| 7.6                     | Re-testing .....  | 22          |
| <b>8</b>                | <b>Range of qualification</b> .....                             | <b>22</b>   |
| 8.1                     | General .....   | 22          |
| 8.2                     | Related to the manufacturer .....                               | 22          |
| 8.3                     | Related to the parent material .....                            | 23          |
| 8.3.1                   | Parent material grouping .....                                  | 23          |
| 8.3.2                   | Material thickness .....  | 25          |
| 8.3.3                   | Diameter of pipes and branch connections .....                  | 27          |
| 8.3.4                   | Angle of branch connection .....                                | 27          |
| 8.4                     | Common to all welding procedures .....                          | 28          |
| 8.4.1                   | Welding processes .....   | 28          |
| 8.4.2                   | Welding positions .....   | 28          |
| 8.4.3                   | Type of joint/weld .....  | 29          |
| 8.4.4                   | Filler material, manufacturer/trade name, designation .....     | 30          |
| 8.4.5                   | Filler material size .....                                      | 30          |
| 8.4.6                   | Type of current .....   | 31          |

|          |  |           |
|----------|--|-----------|
| 8.4.7    | Heat input (arc energy).....   | 31        |
| 8.4.8    | Preheat temperature .....  | 31        |
| 8.4.9    | Interpass temperature.....   | 31        |
| 8.4.10   | Post-heating for hydrogen release.....   | 32        |
| 8.4.11   | Heat-treatment.....  | 32        |
| 8.5      | Specific to processes.....   | 32        |
| 8.5.1    | Submerged arc welding (process 12).....  | 32        |
| 8.5.2    | Gas-shielded metal arc welding (process 13).....   | 33        |
| 8.5.3    | Gas-shielded arc welding with non-consumable electrode (process 14).....   | 35        |
| 8.5.4    | Plasma arc welding (process 15).....   | 35        |
| 8.5.5    | Oxy-acetylene welding (process 311).....   | 35        |
| 8.5.6    | Backing gas.....   | 35        |
