ISO 14916:2017-03 (E)

Thermal spraying - Determination of tensile adhesive strength

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Principles 2

5 Equipment for testing and measuring and auxiliary equipment 3
5.1 Test instruments 3
5.2 Measurement instrument 3
5.3 Specimen fixing device for bonding of the tensile adhesive specimen 4

6 Specimens 4
6.1 Shape of specimens 4
6.2 Material of the specimen 6
6.3 Preparing the substrate and loading blocks 6
6.4 Preparing and spraying of the specimen 8
6.5 Manufacture of the specimens for tensile testing 9
6.5.1 Machining of the coated substrate block (or test disc) and preparation for bonding 9
6.5.2 Gluing the specimen 9
6.5.3 Bonding agent 9
6.6 Reference specimen 10
6.7 Number of specimens to be tested 10

7 Applying the testing 10

8 Measurement readings and evaluation 11

9 Test report -- Documentation 12

10 Possible sources of fault when preparing the specimens and on testing 13

Annex A (informative) Work instructions for gluing 14

Annex B (informative) Recommendations for further auxiliary equipment 17

Annex C (informative) Function areas on the tensile adhesive specimen and possibilities of fracture locations according to ASTM C633-13 21

Annex D (informative) Record for the applied tensile adhesive test according to this document 22

Bibliography 26
