

DIN EN 17002:2018-10 (E)

Thermal spraying - Components with thermally sprayed coatings - Thermal spray procedure specification

| Contents | | Page |
|---|---|-------------|
| European foreword | | 3 |
| Introduction | | 4 |
| 1 | Scope | 5 |
| 2 | Normative references | 5 |
| 3 | Terms and definitions | 5 |
| 4 | Requirements | 6 |
| 5 | Technical content of the thermal spray procedure specification | 6 |
| 5.1 | Preparing the thermal spray procedure specification | 6 |
| 5.2 | Minimum information in the thermal spray procedure specification | 6 |
| 5.3 | Process parameters | 7 |
| 5.4 | Scope of validity of the thermal spray procedure specification | 7 |
| 5.5 | Qualification of the thermal spray procedure specification by a component-related procedure qualification | 8 |
| 5.6 | Information about the content of a thermal spray procedure specification according to Annex A | 8 |
| Annex A (informative) Example of Thermal Spray Procedure Specification (TSPS) | | 9 |
