DIN EN 13507:2018-10 (E)

Thermal spraying - Pre-treatment of surfaces of metallic parts and components for thermal spraying

Contents

Page

European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principles 4

5 Methods of surface preparation 5
5.1 General 5
5.2 Degreasing 5
5.3 Grit blasting 5
5.3.1 Cleanliness 5
5.3.2 Roughness 6
5.3.3 Abrasives 6
5.3.4 Post cleaning after grit blasting 6
5.3.5 Examination of grit blasted surfaces 7
5.4 Threading/grooving 7
5.5 Cleaning by reversed transferred arc 7
5.6 Bond coatings 7
5.7 Precautions for health, safety and environmental protection 7

6 Preheating 7

7 Masking of areas not to be coated 8

8 Effect of pre-treatment on the fatigue strength 8
