ISO 23493:2020 (E)

Welding and allied processes — Process specification for laser-arc hybrid welding for metallic materials

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Safety

5 Welding operator qualification

6 Laser-arc hybrid welding equipment

7 Shielding gas

8 Joint design and preparation

9 Wire selection

10 Preparation prior to welding

10.1 Handling of work piece
10.1.1 Work piece condition inspection
10.1.2 Cleaning before welding
10.2 Assembling and fixturing
10.3 Equipment status checking

11 Torch design

12 Welding procedure specification and qualification

13 Welding parameters

14 Weld quality inspection and acceptance

15 Weld properties determination and acceptance
