DIN 1910-3:2023-05 (E)

Welding and allied processes - Plastic welding - Part 3: Processes for welding of thermoplast ics

Contents

Page

Foreword 4
1 Scope 6
2 Normative references 6
3 Terms and definitions 6
4 Welding by thermal conduction 6
4.1 General 6
4.2 Direct contact heated tool welding 6
4.2.1 General 6
4.2.2 Heated plate welding (HS) 7
4.2.3 Heated tool groove welding (HN) 7
4.2.4 Welding by bending using a heated tool (HB) 8
4.2.5 Sleeve welding (HD) 9
4.2.6 Electrofusion welding (HM) 10
4.2.7 Heated wedge welding (HH) 11
4.2.8 Heated tool welding with cutting edge (HT) 11
4.3 Indirect heated tool welding 11
4.3.1 General 11
4.3.2 Impulse sealing (HI) 12
4.3.3 Heat sealing (HK) 13
4.3.4 Band sealing (HR) 14
5 Hot gas welding 14
5.1 General 14
5.2 Hot gas string-bead welding (WZ) 14
5.3 Hot gas fan welding (WF) 15
5.4 Hot gas lap welding (WU) 16
5.5 Hot gas butt welding (WS) 17
5.6 Hot gas welding by extrusion of filler material (WE) 17
6 Light beam welding 18
6.1 General 18
6.2 Laser beam welding (LB) 19
6.2.1 General 19
6.2.2 Laser beam contour welding (LB-CW) 19
6.2.3 Laser beam simultaneous welding (LB-SW) 20
6.2.4 Laser beam quasi-simultaneous welding (LB-QSW) 20
6.3 Infrared welding (IR) 21
7 Welding using movement of a mass 22
7.1 Ultrasonic welding (US) 22
7.2 Friction welding 22
7.2.1 Spin welding (FR) 22
7.2.2 Vibration welding (VIB) 23
8 Welding in electromagnetic field 25
8.1 High-frequency welding (HF) 25
8.2 Induction welding (IND) 25
8.3 Microwave welding (MW) 26
9 List of welding processes in German, English and French; code letters and classification numbers 27
Bibliography 30
