

# DIN 35255:2025-11 (E)

## Quality requirements for composite processes

---

<b>Contents</b>		<b>Page</b>
Foreword .....		5
Introduction .....		6
<b>1</b>	<b>Scope .....</b>	<b>8</b>
<b>2</b>	<b>Normative references .....</b>	<b>8</b>
<b>3</b>	<b>Terms and definitions .....</b>	<b>8</b>
<b>4</b>	<b>Core element 1: classification of composites/composite components according to safety requirements .....</b>	<b>13</b>
4.1	General .....	13
4.2	Definition of the safety classes .....	13
4.3	Documentation of the classification according to safety classes .....	15
<b>5</b>	<b>Core element 2: composite personnel -- competence, knowledge, and experience .....</b>	<b>15</b>
5.1	General .....	15
5.2	Composite personnel of the performing level .....	16
5.2.1	General -- composite personnel of the performing level .....	16
5.2.2	Functions -- composite personnel of the performing level .....	16
5.2.3	Duties -- composite personnel of the performing level .....	16
5.2.4	Competence, knowledge, and experience -- composite personnel of the performing level .....	16
5.3	Composite coordination personnel (CCP) .....	16
5.3.1	General -- composite coordination personnel (CCP) .....	16
5.3.2	Functions -- composite coordination personnel (CCP) .....	17
5.3.3	Duties -- composite coordination personnel (CCP) .....	17
5.3.4	Competence, knowledge, and experience -- composite coordination personnel (CCP) .....	19
5.3.5	Organizational integration of composite coordination .....	19
5.4	Levels of competence, knowledge, and experience for Composite Personnel (CP) .....	20
5.4.1	General .....	20
5.4.2	Requirements of competence, knowledge, and experience for each level .....	21
5.5	Assignment of the three competence levels to the safety classes .....	23
5.6	Comparability of competence, knowledge, and experience .....	24
5.6.1	General .....	24
5.6.2	Verifying competence, knowledge, and experience .....	25
5.6.3	Verification of practical professional competence .....	26
5.7	Monitoring, inspection, and testing personnel .....	27
<b>6</b>	<b>Core element 3: design and verification of composites/composite components .....</b>	<b>27</b>
6.1	General .....	27
6.2	Assignment to safety classes .....	27
6.3	Requirements .....	27
6.4	Material system .....	27
6.5	Factors influencing the composite process .....	28
6.6	Verification .....	28
6.6.1	General .....	28
6.6.2	Method 1 -- real loading in use < maximum load capacity .....	28
6.6.3	Method 2 -- assembly/component testing .....	29
6.6.4	Method 3 -- documented experience .....	29
6.6.5	Method 4 -- combination of methods 1 to 3 .....	29

7	Drafting contracts and subcontracting .....	30
7.1	Contract drafting .....	30
7.2	Subcontracting .....	30
8	Production/manufacturing .....	30
8.1	General .....	30
8.2	General process requirements .....	31
8.2.1	Production planning .....	31
8.2.2	Process design .....	31
8.2.3	Planning the use of production equipment and tools .....	32
8.2.4	Manufacturing documents .....	32
8.2.5	Process verification and release .....	33
8.2.6	Materials .....	33
8.2.7	Transport, storage, and logistics for materials and auxiliary materials .....	34
8.2.8	Manufacturing environment and workplace preparation .....	34
8.2.9	Health, safety, and environmental protection .....	35
8.2.10	Dosing and mixing .....	35
8.3	Documentation during composite manufacturing .....	35
8.4	Reworking .....	36
8.5	Storage, packaging, and transport of composite components .....	36
9	Quality assurance .....	36
9.1	General .....	36
9.2	Quality planning .....	37
9.2.1	General .....	37
9.2.2	Quality planning .....	37
9.2.3	Control of quality planning .....	37
9.3	Quality control .....	38
9.3.1	General .....	38
9.3.2	Test methods .....	38
9.4	Process safety .....	40
9.4.1	General .....	40
9.4.2	Production-accompanying work samples as verification of application quality .....	40
9.4.3	Monitoring of equipment, manufacturing aids and tools .....	40
9.5	Measures in case of deviations .....	40
9.6	Monitoring of test equipment .....	40
10	Maintenance and repair .....	41
10.1	General .....	41
10.2	Maintenance and repair planning .....	41
10.3	Maintenance and repair instructions .....	41
10.4	Carrying out maintenance and repair work/performance rules .....	41
10.5	Documentation .....	42
10.6	Subcontracting .....	42
Annex A (normative) Specifying the comprehensive, specific, and basic competencies .....		43
A.1	Acquisition and determination of competencies for composite personnel .....	43
A.2	Detailed definitions of competencies, knowledge application, practical application, and experience in relation to the subject matters defined in Table A.3 of this Annex .....	45
A.2.1	Comprehensive, decision-making level .....	45
A.2.2	Specific, instructional level .....	57
A.2.3	Basic, performing level .....	63
Annex B (informative) Requirements list for composites .....		69
Bibliography .....		70
Figures Figure 1 -- Composition of personnel for composite technology (composite personnel, CP) .....		15
Figure 2 -- Linking scope of work, safety class, and competence level .....		24

<b>Table 1 -- Classification of composites/composite components depending on the level of safety requirements .....</b>	<b>14</b>
<b>Table 2 -- Examples of CCP duties .....</b>	<b>18</b>
<b>Table 3 -- Level of competence, knowledge, and experience for composite personnel (CP) .....</b>	<b>20</b>
<b>Table 4 -- Minimum requirements for technological competence, knowledge, and experience in composite technology for Composite Coordination Personnel (CCP) and their deputies ..</b>	<b>23</b>
<b>Table A.1 -- Competence levels -- skills and duties with the corresponding learning objectives for each level .....</b>	<b>43</b>
<b>Table A.2 -- Examples of typical action verbs depending on the respective competence level .....</b>	<b>44</b>
<b>Table A.3 -- Subject content on the minimum technological competences for composite processes including development, production, maintenance .....</b>	<b>44</b>
<b>Table B.1 -- Exemplary list of requirements for composites .....</b>	<b>69</b>
