ISO 15609-5:2004-08 (E)

Specification and qualification of welding procedures for metallic materials - Welding procedure specification - Part 5: Resistance welding

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Technical contents of welding procedure specification (WPS) 2
4.1 General 2
4.2 Related to manufacturer 2
4.3 Related to parent material 2
4.3.1 Composition of parent material 2
4.3.2 Dimension of parent material 2
4.4 Common to all welding procedures 2
4.4.1 Welding process 2
4.4.2 Machine specification 3
4.4.3 Joint design 3
4.4.4 Surface or edge preparation 4
4.4.5 Welding technique 4
4.4.6 Resistance welding electrodes and auxiliaries 4
4.4.7 Machine parameters and control settings 4

Annex A (informative) Welding procedure specification - I - Planned process requirements 6

Annex B (informative) Welding procedure specification - II - Quality acceptance criteria 8

Annex C (informative) Welding procedure specification - III - Welding machine set-up 9

Annex ZA (normative) Normative references to International publications with their relevant European publications 10
