ISO 2063:2005-03 (E)

Thermal spraying - Metallic and other inorganic coatings - Zinc, aluminium and their alloys

Contents

Page

page Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Manner of specifying requirements 2

5 Classification 3

6 Manufacture 3
6.1 Preparation of surfaces to be coated by thermal spraying 3
6.2 Coating metal 4
6.3 Thermal spraying 4
6.4 Sealing 4
6.5 Painting 4

7 Required characteristics 5
7.1 Thickness 5
7.2 Appearance 6
7.3 Adhesion 6

8 Test methods 6
8.1 Measurement of thickness 6
8.2 Adhesion test 7

Annex A (informative) Adhesion test methods 8

A.1 Grid test 8
A.2 Tensile test method 9

Annex B (informative) Recommendations for use 11
