## Acceptance tests for Nd:YAG laser beam welding machines - Machines with optical fibre delivery - Part 1: Laser assembly

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Environmental conditions and operating conditions of acceptance tests .....	2
4.1	Installation environment .....	2
4.2	Power supply .....	2
4.3	Cooling system .....	2
4.4	Pumping light source .....	2
4.5	Shielding and assist gas .....	2
4.6	Operating instruction for users .....	2
5	Acceptance test .....	3
5.1	General .....	3
5.2	Check of parts .....	3
5.3	Acceptance tests for laser power and optical system .....	3
5.4	Test for laser beam safety .....	4
5.5	Test of pressures and flow rates of assist and shielding gases .....	5
6	Welding test .....	5
7	Records of test results .....	5
Annex A (informative) Example of a test report form .....		6
Annex B (informative) Optional parameters .....		8
Bibliography .....		9
