

DIN EN ISO 18274:2006-05 (E)

Welding consumables - Wire and strip electrodes, wires and rods for fusion welding of nickel and nickel alloys - Classification (ISO 18274:2004 + Cor. 1:2005)

Contents

	Page
Foreword.....	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Classification.....	5
4 Symbols and requirements.....	5
4.1 Symbols for the product form	5
4.2 Symbol for the chemical composition	6
5 Mechanical properties of the weld metal.....	12
6 Chemical analysis.....	12
7 Retest	12
8 Technical delivery conditions.....	12
9 Designation.....	12
Annex A (informative) Description of consumable classes.....	14
Annex B (informative) System for designation of welding filler metals	20
Annex C (informative) Corresponding national classifications.....	21
Bibliography	23
