

DIN EN ISO 18274:2006-05 (E)

Welding consumables - Wire and strip electrodes, wires and rods for fusion welding of nickel and nickel alloys - Classification (ISO 18274:2004 + Cor. 1:2005)

Contents

| | Page |
|---|------|
| Foreword..... | 3 |
| Introduction | 4 |
| 1 Scope | 5 |
| 2 Normative references | 5 |
| 3 Classification..... | 5 |
| 4 Symbols and requirements..... | 5 |
| 4.1 Symbols for the product form | 5 |
| 4.2 Symbol for the chemical composition | 6 |
| 5 Mechanical properties of the weld metal..... | 12 |
| 6 Chemical analysis..... | 12 |
| 7 Retest | 12 |
| 8 Technical delivery conditions..... | 12 |
| 9 Designation..... | 12 |
| Annex A (informative) Description of consumable classes..... | 14 |
| Annex B (informative) System for designation of welding filler metals | 20 |
| Annex C (informative) Corresponding national classifications..... | 21 |
| Bibliography | 23 |
