Resistance spot-, projection- and seam-welding - Method for determining the transition resistance on aluminium and steel material

Contents		Page
Foreword		iv
1	Scope	1
2	Terms and definitions	1
3	Basic principles	2
4	Measurement	2
4.1	Measuring set-up	2
4.2	Measurement procedure	5
5	Test equipment	6
6	Formulae and abbreviations for calculating the transition resistance	7
7	Test report	8
Annex A (informative) Test report		9
Bibliography		11
