

# DIN 2559-2:2007-09 (E)

## Preparation of joints for welding - Part 2: Matching of inside diameters for circumferential welds on seamless tubes

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
1	Scope .....	4
2	Normative references .....	4
3	Symbols and definitions .....	4
4	Dimensions .....	5
4.1	General .....	5
4.2	Tolerances .....	6
4.3	Calculating the matching diameter .....	6
5	Joint preparation .....	9
Figures	Figure 1 -- Joint preparation as in DIN EN ISO 9692-1, Ref. no. 1.3, matched .....	5
	Figure 2 -- Joint preparation as in DIN EN ISO 9692-1, Ref. no. 1.6, matched .....	5
	Figure 3 -- Relationship between equations in Table 2 and outside diameters and wall thicknesses in Table 6 .....	7
Tables	Table 1 -- Tolerances for $d_p$ .....	6
	Table 2 -- Equations for calculating $d_p$ for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or DIN EN 10216-2:2004-07, Table 7 .....	6
	Table 3 -- Equations for calculating $d_p$ for tubes with inside diameter and wall thickness as in DIN EN 10216-2:2004-07, Table 8, or inside diameter and minimum wall thickness as in DIN EN 10216-2:2004-07, Table 10 .....	7
	Table 4 -- Equations for calculating $d_p$ for tubes with outside diameter and minimum wall thickness as in DIN EN 10216-2:2004-07, Table 9 .....	8
	Tabelle 5 -- Equations for calculating $d_p$ for tubes ordered cold-finished with outside diameter and wall thickness as in DIN EN 10216-2:2004-07, Table 11 .....	8
	Table 6 -- Matching diameter $d_p$ as in Table 2 for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or DIN EN 10216-2:2004-07, Table 7 .....	10
	Table 7 -- Matching diameter $d_p$ as in Table 3 for tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 9 .....	13
	Table 8 -- Matching diameter $d_p$ as in Table 6 for cold-finished tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 11 .....	16
	Table 9 -- Minimum allowable wall thickness $t_p$ for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or as in DIN EN 10216-2:2004-07, Table 7 .....	19
	Table 10 -- Minimum allowable wall thickness $t_p$ for cold-finished tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 11 .....	20
