DIN EN 13478:2008-12 (E)

Safety of machinery - Fire prevention and protection (includes Amendment A1:2008)

Contents

Page

Foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Requirements for hazard identification 9
4.1 General 9
4.2 Combustible materials 10
4.3 Oxidizers 10
4.4 Ignition sources 10

5 Requirements for risk assessment 10
5.1 General 10
5.2 Risk analysis 11
5.3 Risk evaluation 12
5.4 Risk reduction 12

6 Requirements for technical fire prevention and protection measures for machinery 12
6.1 General 12
6.2 Design/engineering measures 12
6.3 Use of integrated fire detection and fire fighting systems 13
6.4 Additional measures 13
6.5 Information for use 13

7 Requirements for the selection and design of technical fire prevention and protection measures 14
7.1 Procedure 14
7.2 Decisions on technical fire prevention and protection measures 16
7.3 Selection of integrated fire detection and fire fighting systems in relation to the expected harm 16
7.4 Safety considerations 19
7.5 System parts 19
7.6 Fire extinguishing agents 19

8 Operating conditions 20

"" !! Requirements of EU Directive 2006/42/EC""""" 25

Bibliography 26

!!Relationship between this European Standard and the EssentialAnnex ZA (informative) Annex ZB (informative) !!Relationship between this European Standard and the Essential Annex A (informative) Requirements of EU Directive 98/37/EC"" 24

Examples of ignition sources 21

Annex B (informative) Example for the design of an extinguishing system integrated in machinery . 23
