# ISO 15767:2009-06 (E)

## Workplace atmospheres - Controlling and characterizing uncertainty in weighing collected aerosols

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Terms and definitions ..... 1

3 Weight instability -- Causes and minimization ..... 3
3.1 General ..... 3
3.2 Moisture sorption ..... 3
3.3 Electrostatic effects ..... 4
3.4 Effects of volatile compounds (other than water) ..... 4
3.5 Handling damage ..... 4
3.6 Buoyancy changes ..... 4

4 Correcting for weight instability by use of blanks ..... 5
4.1 General ..... 5
4.2 Minimum number of blanks ..... 5
4.3 Weighing times and sequence ..... 5
4.4 Conditioning times ..... 5
4.5 Storage stability ..... 5

5 Transport of collection substrates with collected aerosol samples to laboratory ..... 6
5.1 General ..... 6
5.2 Recommended packaging ..... 6

6 Weighing equipment and procedure ..... 6
6.1 The balance ..... 6
6.2 Recommended environmental controls ..... 7
6.3 Other equipment requirements ..... 7
6.4 Procedure ..... 7

7 Recommendations for the reporting of measured mass relative to LOD and LOQ ..... 8

8 Estimation of the uncertainty of the analytical procedure of weighing aerosol collection substrates ..... 8
8.1 Introduction ..... 8
8.2 Within-laboratory estimated standard deviation sw obtained over an extended period ..... 9

9 Measures to assure the validity of previously determined measurement uncertainty ..... 9
9.1 Continued determination of within-laboratory reproducibility ..... 9
9.2 Participation in laboratory performance proficiency testing ..... 9
9.3 Laboratory self-check on weighing uncertainty ..... 9

Annex A (normative) Uncertainty component in weighing collected aerosol ..... 10

Annex B (informative) Interpretation of LOD and LOQ ..... 14

Annex C (informative) Method evaluation example ..... 16

**Annex D (normative) Test of transportation integrity ..... 17**

**Annex E (informative) Check on weighing uncertainty ..... 18**

**Annex F (informative) Balance uncertainty ..... 19**

**Bibliography ..... 21**
